meet tivvit.

Social shopping made personal! TIVVIT is the premier peer-to-peer social shopping app that allows you to monetize your shopping habit. Give and receive personal style advice. Shop or suggest items by your favorite brands while earning cash on your recommendations. Are you earning off your style yet?

“SEEK. SHOP. SHARE. EARN.”

No stranger to the affiliate space, Jenny Cipoletti, the fashion blogger behind Margo & Me, was used to earning off what she was wearing and sharing, fielding endless requests from followers and friends asking for personal shopping advice. As a fashion industry vet and influencer, she recognized a key element of social shopping was missing. She saw an opportunity to create a platform where peer-to-peer requests and personalized recommendations could be made and monetized.

“I envisioned an inclusive platform, where like minded fashion lovers, not just influencers, are invited to share and create their style suggestions—and have the ability to earn money while doing so.”

COLLECTIONS

Collections help you inspire others and gain followers. Start by creating a Collection of clothing and accessories based on a style or a theme you like. Maybe your Collection will include cocktail dresses, under \$100 items, showcase “a look,” or feature your favorite hats. Other TIVVIT users will explore your Collections, and when they purchase the items you include, you earn commissions!

RECOMMEND

Looking to switch up your side hustle? Have a scroll through your feed and see who’s looking for recommendations. Simply comment or message your suggestions from TIVVIT’s catalog of thousands of designer and retailers, ranging from Reformation to Neiman Marcus and Nordstrom.

CHAT

Chat lets you have conversations, either with other individual users or with groups. It works just as all the other chat apps you use, except that you can also share products from the Catalog into your messages. If someone buys a product you suggest in a message, you can earn a commission! The more users you get to know and chat with, the more opportunity there is for you to earn on your suggestions.

CATALOG

The Catalog is the place to discover all of the products you already know and love from your favorite brands and retailers. The Catalog contains millions of products and thousands of brands, and we update it daily to keep it current. Add products to your Collections directly from the catalog, send in a message or leave as a comment.

FEED

The Feed keeps your finger on the pulse of the style conversation. Post questions for suggestions, and receive recommendations from other members of the TIVVIT community. View requests posted by others and suggest your own ideas—if your suggestion leads to a purchase, you can earn a commission! Keep track of new Collections and updates, and see what other TIVVIT users are purchasing!

QUESTION

Need an outfit recommendation for the wedding you’re attending next month but don’t know where to look? Ask a question to the TIVVIT community and watch the recommendations flow in by the numbers. Instead of having to spend hours searching, you will have a well-curated collection from your peers, who know and love your style already. Or, simply message your favorite stylish TIVVIT user and ask for their recommendations directly.

EARNINGS

Anytime you make a sale from a feed post, collection, chat, request or recommendation, you earn! TIVVIT’s earnings page is full of exciting insights so you can see what you’re selling in real time while tracking your commissions.
